

ÜRÜN KATALOĞU

hayalden çizgiye, çizgiden hayata...

www.mekaplast.com.tr

HAKKIMIZDA

Isı Yalıtım ve Plastik sektöründe 30 yıllık bilgi birikiminin sonucu Mekaplast! Mekaplast Metal Kalıp Plastik San. ve Tic. Ltd. Şti. İMES. sanayi sitesinde 3000 m2 kapalı alanda faaliyete başladı. Deneyimli yönetim kadrosu ve eğitimli teknik elemanlarıyla yurtiçi ve yurtdışı ısı yalıtım ve plastik sektöründe adını duyurmayı başardı. Mekaplast, izolasyon contaları başlığı altında alüminyum doğrama fitilleri, plastik doğrama contaları ve co-extrüzyon sert yumuşak fitillerin üretimini gerçekleştirmektedir. Sineklik aksesuarları, alüminyum doğrama sektörüne yönelik enjeksiyon ürünleri, cam takozları, tapa çeşitleri ve ispanyolet karşılığı tarzında ürünlerde ürün yelpazesi içerisinde bulunmaktadır.

Vizyonumuz

Mekaplast olarak; ısı yalıtım ürünlerini kullanan toptan ve perakende satışını yapan kişi ve kurumları sürekli geliştirecek ve güncel tutacak ürünleri tasarlamak ve üretmek, aynı zamanda satış ve pazarlamasına kılavuzluk etmektir. Bu doğrultuda Mekaplast teknolojik gelişmeleri takip etmekte ürün yelpazesini her geçen gün genişletmekte ve güncel tutmaktadır.

Misyonumuz

Ürünlerimizin, çözümlerimizin ve tasarımlarımızın, satış sonrası güvenilirlik ve yüksek iç ahlakımız ile siz müşterilerimizin ilk tercihi olmak ve sizler için değer yaratan bir firma olmak.

Değerlerimiz

Müşterilerimizin ihtiyaç ve beklentilerini daha kaliteli hizmet ile karşılamak temel hedefimizdir. Sektörün kalite ihtiyacına cevap veren izleyen değil izlenen olmak. Rekabeti fiyatlarla değil kalite ile oluşturmak temel ilkemizdir.

Isı yalıtımında çözüm ortağınız.

ABOUT US

Mekaplast is the result of 30 years of knowledge in the Thermal Insulation and Plastic industry! Mekaplast Metal Kalıp Plastik Ind. and Trading. Ltd. Sti. Started to operate in a 3000 m2 closed area in the IMES industrial site. With its experienced management staff and trained technical staff, it has managed to make reputation in the domestic and international thermal insulation and plastic industry. Mekaplast manufactures aluminum joinery wicks, plastic joinery seals and coextrusion hard soft wicks under the title of isolation seals. Flapper accessories, injection products for the aluminum joinery industry, glass wedges, stopper types and espagnolette style products are included in the product range.

Our Vision

As Mekaplast; is to design and manufacture products that will continuously improve and keep up-to-date people and institutions that use thermal insulation products, as well as to guide their sales and marketing. Accordingly, Mekaplast follows technological developments, expanding its product range day by day and keeping it updated.

Our Mission

To be the first choice of our customers with our products, solutions and designs, after sales reliability and high internal morality. To be a company that creates value for you.

Our Values

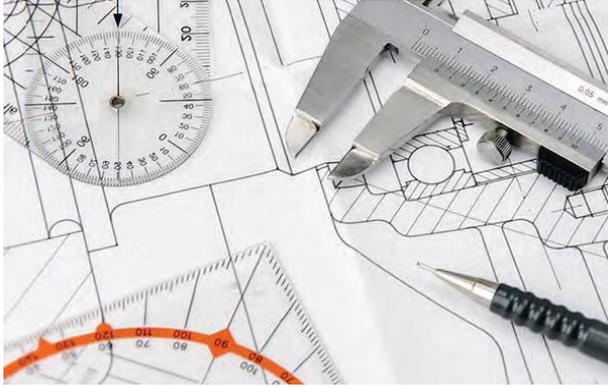

Our main goal is to meet the needs and expectations of our customers with higher quality service. Being monitored, not following, responding to the quality need of the industry. Creating competition with quality, not prices, is our basic principle. Your solution partner in thermal insulation.

PLANLAMA

Müşterimizin bizden talep ettiği contaların, takıldığı profiller ile beraber numunelerini temin ediyoruz. Ardından müşterimizin talepleri doğrultusunda, tasarım ile ilgili gerekli revizyonları planlıyoruz. Dijital ortamda contaların teknik resimleri çiziliyor. Müşterilerimizden gelen teknik bilgiler doğrultusunda, istenilen ham-madde özelliklerine göre fiyatlandırma teklifi yapıp müşterimize sunulur.

PLANNING

We provide the samples of the gaskets requested by us along with the profiles on which the customer is fitted. Then, necessary revisions are planned regarding the design in line with the demands of our customers. Technical drawings of the gasket are drawn in digital environment. In line with the technical information coming from our customers, pricing offers are made according to the desired raw material properties and presented to our customers.

AR-GE

Müşterilerimizin talepleri doğrultusunda tecrübeli ekibimiz tarafından ürünler, tüm hava ve kullanım şartlarına uygun olarak tasarlanır. Mekaplast ailesi müşterilerinin, ürün kalitesi beklentilerini yenilikçi anlayışla sürekli geliştirmektedir.

AR-GE

All the products are produced convenient to all air and usage conditions according to the our customers request by our experienced team. The Mekaplast family constantly improves the product quality expectations of its customers with an innovative approach.

KALIP ÜRETİM SÜRECİ

Müşterimizin onayından geçtikten sonra contanın kullanılacağı profili, camı, varsa aksesuarların çizimini yapıp montaj resmi hazırlıyoruz. Müşterimizin yazılı son onayından sonra, kalıp üretim sürecine geçiyoruz. Contaların kalıbını kendi tesisimizde, CNC ve TEL-EROZYON makinelerinde 0.0005 mm hassasiyetinde üretiyoruz.

MOLD PRODUCTION PROCESS

After the approval of our customer, we draw the profile glass, which will use the gasket, if there is, we draw the accessories and prepare the assembly picture. After the last written approval of our customer, we proceed to the mold production process. The molds of the cones are produced in our own facility in computer controlled CNC and wire erosion machines with a precision of 0.0005 MM.

HAM-MADDE SEÇİMİ VE ÖZELLİKLERİ

Ürünün hangi coğrafi bölgede kullanılacağı, kullanım yeri, istenilen teknik özellik ve sertliğe göre ham-madde seçimini müşterimiz ile gerçekleştiriyoruz. Eğer talep edilirse müşterimizin getirdiği ürünü laboratuvar ortamında inceleyip, aynı teknik özelliklerde ve kalitede ham-maddeyi kendi tesisimizde üretiyoruz.

RAW MATERIAL SELECTION AND CHARACTERISTICS

After the selection of raw materials, the samples of the gaskets you request from us blend and produce with our 35 years of experience, with the love of our work, with the respect for our customers, and then we make free shipping to your address. After approving the samples you received, we proceed to the production process.

ÜRETİM VE SEVKİYAT

Ham-madde seçiminden sonra bizden talep ettiğiniz contaların numunelerini 35 yıllık tecrübemiz, işimize ve sizlere olan saygımız ile üretip sizlere ulaştırıyoruz. Onayınız alındıktan sonra üretim sürecine geçiyoruz.

PRODUCTION AND SHIPPING

After the selection of raw materials, the samples of the gaskets you request from us blend and produce with our 35 years of experience, with the love of our work, with the respect for our customers, and then we make free shipping to your address. After approving the samples you received, we proceed to the production process.

SERT YUMUŐAK ALDOKS FİTİLLER
HARD SOFT ALDOKS SEALS
فواصل مطاطية الدوكس اللينة والصلبة

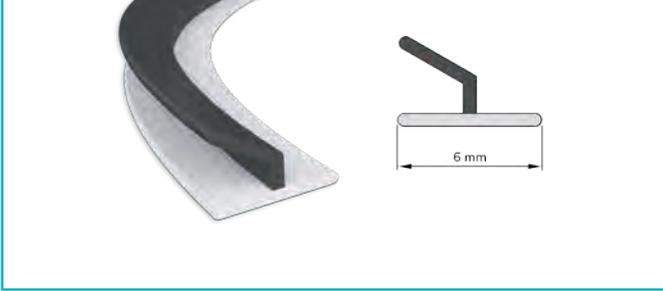

ÖZELLİKLER FEATURES الميزات

- Co-extruzyon tekniđi ile üretilmektedir.
- Co-ex ürünlerin kanala giren kısımları sert, profil kanalının dışında kalan kısımları yumuşak olarak üretilmektedir.
- Profil kanalına giren kısımların sert yapılmasındaki amaç ; montaj kolaylığı sağlanması ve mevsimsel ısı deđişimlerinde contanın uzayıp ksalmasını önlemektir.
- Co-ex ürünlerin sert kısımları 100-110 şor, yumuşak kısımları 60-65 şor olarak üretilmektedir.
- Katalogda belirtilen ölçülerden farklı ölçülerde de üretim yapılmaktadır.
- Produced with co-extrusion technique.
- The parts of co-ex products into channels is hard but out from profile channel parts have produced soft.
- Aim the making hard parts into the profile channel is to get easiest montage and when in the season insulation changes joints against to extending and shortening.
- Produced are hard parts of the co-ex products are 100-110 shore and soft parts are 60-65 shore.
- The production can made in different sizes from the sizes specified in the catalog.

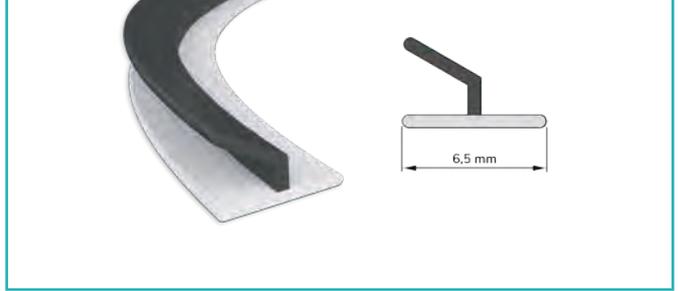

Farklı Ral kodundaki renkler ile de üretim yapılmaktadır.
Production is also made with colors in different Ral codes.
يتم الإنتاج أيضًا بعدة ألوان مختلفة حسب الطلب.
